President

1887-88.

Civil and Military Station of Mangalore

Municipal Commission

Public Works

In this Department the total expenditure for the year has been Rs 67,093-9-6.

Viz on Original Works ——" 18,343-5-7

—"— Maintenance, Repairs &c " 48,750-3-11

The operations under each of these two main heads are divided into the following sub heads.

Roads, Drains, Town Buildings and Miscellaneous.

Original Works

Drains

1. Readjustment of 7 drains near Old Market.

The most defective drains in the General Bazar District especially along Old Poorhouse Road have been attended to.

The old drains in this road constructed some 20 years ago were out of level and in a

a dilapidated state and being constructed about 3 feet below the surface of the road, there was much difficulty in keeping it free from sewage and smell. This nuisance has been now removed by having the drain re shaped and placed a few inches below the road with a good fall

2. Extension of Bholay Main Sewer.

This sewer was constructed to carry away all the sewage from Bholay beyond the Cavalry Barracks. The sewer runs through the Old Soldiers' Garden, cross Victoria Road at its junction with Palm Grove Road and then goes along the Western edge of the Bholay Bank and terminates near the paddy fields below the Bholay's Bank.

A greater part of this sewer is constructed during the official year 1886-87

The construction of this sewer which cost the Municipality nor

12,000 Rupees was carried out at the suggestion of Quarter Master General, Executive Engineer Presidency Division and Deputy Surgeon General.

Drains

No.	Name of works	Amount of Estimate	Amount Expended	Remarks
1	Readjustment of drains near Old Market	2,000	2,265-15	
2	Extension of Pilot Main sewer	6,397	6,414-109	
	Total		8,679-15-2	

Town Buildings

1: Construction of Latrines.

New latrines have been constructed during the year in the undermentioned sites.

Under the New Market Block Lower Lines rear of Beef Market, New Parchery No. 4 Street Pilot, Cokadapollium and Peelsundrum.

The want of public latrines at these places were very much felt; before their construction every nook and corner was used for the committal of nuisance. Now that suitable latrines have been provided the nuisance referred to has

has to a great extent been stopped

The latrines are built of stone slabs and covered over with corrugated iron roofing. The latrines are double, intended both for male and female, partitioned seats have been provided in each compartment and the dry earth system has been adopted

Town Buildings

No.	Names of work	Amount of Estimate	Amount Expended	Remarks
1	Latrine under clock Tower New Market		42 - 3	
2	Do. Rear of Beef Market		513 - 1	
3	Do. New Parchery		199 11 2	
4	Do. Kc No. 4 Street Shoolay		199 11 2	
5	Do. New Parchery		199 11 2	
6	Do. Oshadashalliand	1651	199 11 2	
7	Do. Neelsundrund		199 11 2	
8	Providing stone slab, urine gutters to the latrines		27 - -	
9	Compensation for ground taken up for latrine		20 - -	
	Total		1630 8 2	

Water supply

1. Deepening Miller's Tank.

It having been decided to increase the storage capacity of No. 3 Reservoir and finding that its bed could not be deepened owing to rock, the low ground to the west was added on to the reservoir. This land has only been partly excavate the work is at a stand still as it is not considered advisable to spend any more money on the Miller's Tank until the water scheme for Nkauzal now in hand is disposed of.

2. Removing silt from Upper Ulwa Tank.

The upper Ulwa Tank has been fas silting up and it was therefore consi -ed necessary to spend some money in removing a quantity of silt near the waste weir. The silt removed has been utilized for raising the low ground to the East of Tank. To ma this a useful tank its bed should be considerably deepened and its water spread reduced. At present the Tank is almost dry in December or January.

3. Feeder to the Pholoay Yank from Trinity Churchside

The drainage from Trinity Church and the plains to the South of it which used to find its way into the Pholoay Yank at Yamarpet has now been diverted into Pholoay Yank by the construction of an extra feeder to the Yank at its East end. Arrangements will be made shortly to have the drainage towards the Old Protestant cemetery also brought into this Yank.

4. Deepening & Straightening for providing a useful channel.

Very little has been done towards carrying out this scheme owing to the money allotted for this purpose being required for some more urgent work.

Only a small sum Viz Rs 942 has been expended in blasting some rocks in the bed of the proposed feeder.

A detailed scheme for improving this Yank is now under preparation.

Water supply

No.	Names of work.	Amount of Estimate	Amount Expended	Remarks
1	Deepening Miller's Yank	3000	3000	
2	Removing silt from Upper Ulmoor Yank	2000	2003	3
3	Yeeded to the Shoolay Yank from Trinity Churchside	547	544	17
4	Deepening Abbitimmee Gully Yank for providing a supply channel	943	9429	
	Total		6489	11 10

Miscellaneous Public Improvements

Recreation Ground for Richmond Town

The waste land to the west of Richmond Town has been reclaimed and converted into a recreation ground. This work was contemplated several years ago but had to be deferred for the want of funds.

The opening up of this recreation ground has been a great boon to the residents of Richmond Town

2. Raising the waste weir of Ulsoor Yank

The waste weir of the Ulsoor Yank has been raised 1 foot, it was first intended to raise it 2 feet but the idea of doing so was given up as the raising of the weir to this height was likely to submerge a portion of the General Bazar

Miscellaneous Public Improvements

No.	Name of works	Amount of Estimate	Amount Expended	Remarks
1	Recreation Grounds for Richmond Town	500	500 " "	
2	Raising the waste weir of Ulsoor Yank	"	45 10 6	
	Total		545 10 6	

Compensation

Rupees 997-7-11 have been paid as compensation for lands taken up for the improvement of works noted below.

1. Removing huts from Kullully Rs. 171-8-0
2. Deepening Miller's Yank " 627-9-2
3. Improving Lander's Goontah " 198-6-3

Total Rupees 997-7-11

Repairs

Roads

Cantonment Roads

The allotment sanctioned for the upkeep of these roads during the year is Rs 17,500

The actual expenditure is Rs 17,825-9 which amount has been utilized as follows

In Special Work

Metalling Roads Rs 5,860-13

In Maintenance

General Repairs Rs 10,719-2-5

Tools and Plant -- 358-9-8

Petty Supervision -- 886-15-1

Total Rupees 11,964-12-

Grand Total Rupees 17,825-9-

The particulars of the special work carried out are given in the appended statement -

Executive Engineer

To

The President

Municipal Commission

Civil and Military Station

Singapore

Sir

I have the honor to submit my report on the accounts of the Municipality of the Civil and Milita Station for the year 1887-88

The receipts during the yea under review aggregated Rs 168 617, and the expenditure Rs 1,78,889 shewin an expenditure over income of Rs 10272/.

The collections under "Tax on Houses, Buildings and Lands, Professions and Trades, Markets, and the Local Cess on Arrack yielded an increase of Rs 7904

over

over the estimated income, while the receipts under the other heads fell short by Rs 6304, thus giving a net increase of Rs 1600

The disbursements exclusive of B. Works amounted to Rs 119517 and are given in detail in Statement III appended to the Report.

I moved suggest that the practice obtained by the Residency Surgeon of deducting from his contingent abstracts, the sums recovered by him on account of diet to patients be discontinued and that he be directed to forward all such monies to the Municipal office, as it is a well known principle that all monies received by any officer of Government in his official capacity must be paid in full into the

Treasury

Treasury, to be credited to the appropriate account; and also that the nature and limit of contingent charges which may be disbursed by that Officer may be defined as during the year an expenditure of Rs 100 and odd disbursed by him on account of a Cash Chest had to be admitted by me for want of the above ruling.

As regards the stores of the P. W. Department, I would suggest that all stores received by the Engineer should be made over to the Storekeeper and his receipt obtained thereto in a separate book kept for that purpose and that no stores be issued by him except on indents signed by the Engineer, or some

Other

other responsible Officer deputed by him, Counterfoil receipt of such indents being maintained in the office

The stores should be examined monthly by the Engineer or any other Officer deputed for that purpose and the Stock register bear a certificate as follows:- "Certified that the stock shewn in this Register has been examined by me and found correct and that the issues shewn therein have been made to the Officers named and their receipts or Indents taken and filed." Similarly when stores are received from Contractors, receipts should be granted to them (counterfoil of such being retained in office) and they should be required to attach such receipts to their

bills

bills when presented for payment
in proof of such stores having
been delivered.

In conclusion I have only
to acknowledge the assistance
rendered me throughout the audit
by Mr Devanaj Moodar the
Accountant and his Assistants

I have &c
